LEGISLATIVE – Ms. M. Elisabeth Hyde, Advisor

The Board was briefed on the efforts of the sub-committee that was appointed to review the current law and suggest law changes. A preliminary draft of law changes had been provided to the Board members prior to the board meeting. Instead of reviewing the actual document, the Board discussed the proposed changes in concept form. After listening to comments made by board members and the public present, a straw poll was made to determine which concepts the majority of board members were in favor of. The sub-committee was tasked to continue to work on the draft law. All board members were asked to provide their suggested changes directly to the sub-committee. The sub-committee will provide a revised draft to the Board at the July meeting.

The Board discussed the plan of the sub-committee to continue to work on the draft revisions so that they could be discussed at the upcoming society meetings. Townhouse meetings throughout the state will also be planned. At those meetings the board will seek comments from our licensees with the plan of providing another revised law draft to the Board at the October 2014 board meeting. The goal is still being the introduction of legislation in the 2015 Legislative General Session.

CONTINUING PROFESSIONAL COMPETENCY – Mr. Earl R. Foust, Advisor

The status of the audits for the 2014 renewal cycle was briefed. A larger than usual number of those not responding to the initial notification suggests that many selected for the audit did not receive the initial notification that had been e-mailed. Letters notifications have been sent to those who had not responded by the initial deadline.

Due to the growing number of non-compliances and the problems with this cycle of notifications, the staff was asked to continue to look at the audit process to determine if the process could be improved.

FINANCE – Dr. Daniel S. Turner, Advisor

End of month financial reports for March and April 2014 were reviewed.

Board members were briefed on how the salaries of the executive director and assistance director were determined.

MOTION CARRIED 6-0.

PLS and ALLS Exams given April 2014, to licensure those individuals who passed the PLS and ALLS Exams having previously passed the FLS Exam and further that the list of those issued licensure as a result of passing these examinations be included in the minutes on **Attachment #1**. MOTION CARRIED 6-0.

The status of the ALLS Exam rewrite was discussed. With three of the four board members who were involved in the rewrite effort having either already rotated off the board or will be rotating off in the very near future, it was suggested that a review of the status of the state specific exam be done. A subcommittee of Mr. Christy (Chair), Dr. Turner, and Mr. Santora was established to determine the status of the ALLS exam. The sub-committee was asked to provide a report of their work at the July board meeting.

ENGINEERING – Charles P. Willis, Advisor

The Board approved the April 2014 PE and SE exam results.

- 14-133. IT WAS MOVED by Mr. Willis and seconded by Ms. Hyde to accept NCEES' recommended cutoff score for the PE and SE Examinations, to approve the results of the PE and SE Exams given April 2014, to license those individuals who passed the PE or SE having previously passed the FE Exam and further that the list of those issued licensure as a result of passing these examinations be included in the minutes on **Attachment #1**. MOTION CARRIED 6-0.

CHAIR'S REPORT

The results of the recent Sunset Audit report were briefed. The Executive Director explained the Legislative Sunset Process.

EXECUTIVE DIRECTOR'S REPORT

Board officers for 2014-2015 year were elected.

- 14-134. IT WAS MOVED by Dr. Turner and seconded by Mr. Willis that Mr. Foust be elected as Chair of the Board for the 2014-2015 year. MOTION CARRIED 6-0
- 14-135. IT WAS MOVED by Mr. Willis and seconded by Ms. Hyde that Mr. Barter be elected as Vice-Chair of the Board for the 2014-2015 year. MOTION CARRIED 5-0 with Mr. Barter recused.
- 14-136. IT WAS MOVED by Mr. Willis and seconded by Mr. Barter that Mr. Christy be elected as Secretary of the Board for the 2014-2015 year. MOTION CARRIED 5-0 with Mr. Christy recused.

The Board considered if they would ask NCEES to consider the outgoing board members for NCEES Emeritus Member status.

14-137. IT WAS MOVED by Mr. Willis and seconded by Ms. Hyde to recommend to NCEES Mr. Wilbanks, Dr. Turner, and Mr. Santora for emeritus status with NCEES. MOTION CARRIED 4-0 with Mr. Santora and Dr. Turner recused.

The Board was briefed on changes to the out-of-state travel process.

The Board reviewed the proposed changes to the Administrative Code that will be considered at the July board meeting.

The Board was briefed on the issues involved in the approval process for the receipt of FEMA grant money for community safe rooms. There continues to be confusion as to what agencies need to be involved in the process based on the specific laws in Alabama vs. the general provisions of the FEMA regulations. The Board did not issue an official opinion but it was the consensus of the board that the services of an architect and an engineer are both required. The construction of systems in a safe room either require the involvement of an engineer at the manufacturing plant (in the case of prefab shelters) and on-site. The Board declined to be involved in the permitting process as they felt that it was not within the scope of the Board.

UNFINISHED BUSINESS AND CORRESPONDENCE

The Board took into consideration a proposal from a firm offering to provide independent integrity monitoring for those who have had enforcement actions taken against them by the Board. It was not obvious how the firm's services could be utilized with the types of enforcement actions being taken by the Board. The staff was asked to research the options and costs associated and report back at the next board meeting.

The Board reviewed a request received on behalf of Mr. Yongnam Shin who was seeking an opinion if he needed to have a professional engineer's license to work in one of the automotive manufacturing plants. It was the position of the board that Mr. Shin did not require a PE license as long as the only engineering services he provided was to the manufacturing plant that was his employer.

14-138. IT WAS MOVED by Mr. Santora and seconded by Dr. Turner that Mr. Yongnam Shin does not require a professional engineer's license as long as he is only providing those services in conjunction with product manufacturing. MOTION CARRIED 6-0.

NEWS LETTERS AND OTHER CORRESPONDENCE

Newsletters and general correspondence not requiring a response were reviewed.

OPEN FORUM

Members of the public that were present had made their comments to the Board during the discussion of proposed law changes. No further comments were made during the open forum.
